

Surround[®]

Agricultural Crop Protectant

Repel Damaging Insects From Olive Trees

Developed in conjunction with the United States Department of Agriculture (USDA), Surround Crop Protectant is formulated to suppress insect activity and can be a valuable tool in olive IPM programs. Surround is an EPA-registered insecticide that can help reduce the damage caused in olives by the olive fruit fly, thrips and other insect pests. In addition, Surround may be used to maximize the effectiveness of conventional insecticides by avoiding their overuse, thus minimizing the likelihood of insect resistance.

Olive Fruit Fly Maggot

Nine Ways Surround May Suppress Insect Pests

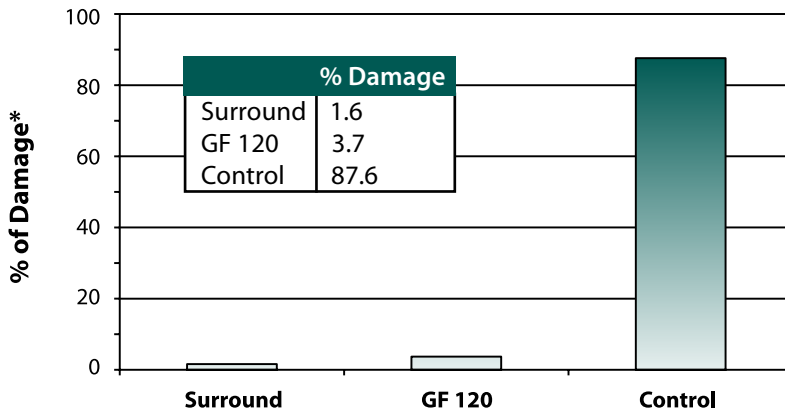

1. Repellency
2. Impedes egg laying
3. Reduces feeding
4. Impedes grasping
5. Restricts movement
6. Camouflage the host – prevents host recognition
7. Alters behavior
8. Induces paralysis
9. Causes mortality

Surround functions best when used as a preventative program, applied to the tree before the pest appears. The use of Surround will reduce pest pressure and may eliminate the need for additional treatments. If pest pressure reaches an economic damage threshold, a knockdown insecticide should be used. Surround may be tank mixed with most crop protection products.

Surround may suppress beneficial insect activity. Closely monitor and employ a typical control program for scale and mite.

Effect of Surround on Reduction of Damage From Olive Fruit Fly

P. Vossen; California, 2004

Application Timing:

Surround - Jun 24, Aug 4
GF 120 - weekly or every other week

Rate: Surround - 50 lb/A

*Mean % damage at harvest, SEP 16 to NOV 12, 2004; in 19 different locations

RECOMMENDATIONS FOR OLIVES

Volume: For 20-foot trees, use 200 gallons of water per acre. Large trees require up to 300 gallons per acre.

Concentration: Use 25 to 50 lbs per 100 gallons of water.

Pest	Lbs/Acre	Application Instruction
Aphids, crickets, flea beetles, fruit flies, grasshoppers, leafhoppers, leafrollers, olive fruit fly, thrips, white fly	25-50	Suppression only*. Start prior to infestation. Spray every 7–14 days throughout infestation.
*If complete control is needed, consider using supplemental controls.		

Application Tips

- Apply Surround to near-drip. Avoid foliage run-off.
- Change the direction of travel on alternate applications for best coverage.
- Surround can be tank mixed with most pesticides. When tank mixing, always add Surround to the tank first. A pre-mix tank is suggested for sprayers without mechanical agitation.
- Aerial application of Surround is not recommended for insect suppression as adequate coverage of large trees is difficult to achieve.

Post-Harvest

Traces of Surround may remain on treated olives after harvest, but these have been demonstrated not to affect the quality of table olives or olive oil.

Important: Always read the label before buying and follow label instructions when using this product.

The use of Surround® WP in agricultural crop protection applications is covered by US Patents 6,027,740; 6,069,112; 6,110,867, 6,156,327, 6,464,995 and 6,877,275.

CONDITIONS OF SALE – LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES

Tessenderlo Kerley, Inc. warrants only that this product conforms to the product description on the label. Tessenderlo Kerley, Inc. makes no representation or warranty or guarantee, whether expressed or implied, of fitness for a particular purpose of merchantability, or of product performance. Tessenderlo Kerley, Inc. does not authorize any agent or representative to make any such representation, warranty or guarantee. Tessenderlo Kerley, Inc.'s maximum liability for breach of its warranty or for use of this product, regardless of the form of action, shall be limited to the purchase price of this product. Buyer and user acknowledge and assume all risks and disposal liability resulting from handling, storage, use and disposal of this product, whether in accordance with directions or not. If buyer does not agree with or accept these warranty and liability limitations, buyer may return the unopened container to the place of purchase for full refund. Buyer's use of this product shall constitute conclusive evidence of buyer's acknowledgement and acceptance of the forgoing limitations. Some states do not allow the exclusion of implied warranties or the limitation of certain damages, so the above may not apply. The purchase, delivery, acceptance and use of this product by the buyer are subject to the terms and conditions of seller's sales invoice for this product.
